The Pottle Fund

The Atlantic International Studies Journal is published by the Atlantic International Studies (ATLIS) Organization. All inquiries should be directed to editor@atlis.ca, or go to our website at www.atlis.ca.

The Atlantic International Studies Journal is a student-run journal whose overarching purpose is to foster undergraduate scholarship in the Atlantic region under the broad rubric of international studies. The journal will provide a venue for students to publish quality term papers from a range of internationally focused studies, such as international relations, political science, development studies, area studies, history, and geography. This will benefit students throughout Atlantic Canada by providing an outlet for exceptional term papers that should be in the public domain.
